07-30	D	5500 Blk NE 2 <sup>nd</sup> St	NF – Open Garage	Laptop, Bikes, Camera, Computer Equipment

## June/July 2010

There were **25** residential burglaries during the month of June, with 0 occurring at an active Block Watch residence. **And** – there were **26** residential burglaries during the month of July, with 0 occurring at an active Block Watch residence

On Tuesday, August 3, the City of Renton hosted National Night Out at Jones Park. There were over 600 people who joined us in “Giving a Going Away Party to Crime and Drugs!”

Attendees enjoyed delicious bar-b-que provided by the City of Renton Neighborhood Program. Everybody also had the opportunity to connect with personnel from our Police and Fire Departments, as well as Mayor Law and members of the City Council. Children had the *most* fun while having their faces painted, fingerprints taken for Child ID kits, playing personal safety games with police and fire personnel, or bouncing on the party hoppers that were available. We were especially happy to have Puget Sound Energy’s “Get Re-Energized” project at this year’s National Night Out Event. Representatives from PSE were on-hand to provide educational materials containing energy solutions for your home, business and community.

A big thank you to all the volunteers who helped make this event such a great success. Each year this event grows more and more popular and it’s so exciting to meet so many people in this community who want to become involved in keeping their neighborhood safe!

# Economy Affects Burglary Rate!

There's been a noticeable increase in burglaries as the economy continues to decline. We've also seen a dramatic increase in forced-entry burglaries as opposed to non-force – although burglars aren't picky. If you leave it open, unsecured or unlocked - they may accommodate you.

In reading the residential burglary reports taken in our city, there are two very hard to ignore commonalities: 1) the homeowner is NOT an active Block Watch member; 2) the home doesn't have an alarm. Let's address these since they are of obvious importance:

- ❖ The Block Watch program is very easy to get started and if it makes such a dramatic difference in whether or not your home will be targeted for burglary, how can you afford NOT to participate? The meetings only take an hour to an hour and a half (depending on group size), and to maintain your active status you only have to have a meeting with me once a year! If you're interested in starting (or restarting) the Block Watch program in your neighborhood, contact me to schedule a meeting date. We are an ever-expanding city so the sooner you contact me the sooner we can get you a date on my calendar!
- ❖ The protection an alarm system affords you is hard to deny, and burglars tend to target homes that do not have an alarm. Burglars don't know if the alarm is monitored or just audible, but either way, its benefits are worth the investment. Burglars don't want to attract attention to themselves, so the noise an alarm makes when your home is breached serves as a great deterrent. And in the rare occasion when a burglar decides to tempt fate and 'give it a go', once that alarm is tripped, normally they high tail it out of there! Which is the goal, right? They understand a police officer could be on their way to that location, or a neighbor could be looking outside at the noise and possibly be able to identify them.

Taking steps to defend the sanctity of your home is up to you. Homeowners who have been victimized can tell you how incredibly difficult it is to reclaim that feeling of peace, safety, and comfort that is damaged when your home is targeted by a burglar.
